

As An Ameteur radio operator (no code tech) any improvement in my operating priviledges, would be Greatly appreciated . Because of a medical condition, I'm unable to hear the code, I have been trying for more than 10 yrs to upgrade to General Class for HF priviledges, but have been held back because of the morse requirement. If this petition is granted it would allow individuals such as myself to get on HF. And enjoy it like I have enjoyed VHF/UHF.
